

## **FOLLOW-UP LESSON 5: COMPARE AND CONTRAST TUTORIAL**

### **WHAT SHOULD MARIA DO?**

#### **WEBQUEST EXTENSION: OPTIONAL**

If students are interested in the idea of comparing our world and other worlds, send them to **2030: Homesteading Mars** at:

[http://students.itec.sfsu.edu/itec815\\_s99/mdeschamp/index.html](http://students.itec.sfsu.edu/itec815_s99/mdeschamp/index.html)

This highly motivating WebQuest, designed for middle-grades students, compares homesteading in the Midwest to homesteading on Mars.

In WebQuests, students are divided into teams and play roles such as architect, engineer, food scientist, etc. They then search the Web collecting information to answer questions.
